# ZOHAIB KHAN

KARACHI, SINDH 75230 ♦ **H:** +923062228262 ♦ **C:** +923062228262 ♦ zohaibkhan4822@gmail.com

## PROFESSIONAL SUMMARY

Tech-savvy Web Development professional with strong expertise in Back-end development and Technical Project Management. Specialized in leading custom web solutions from planning through launch, while contributing hands-on code. Deep knowledge of modern programming languages, frameworks, and best practices. Innovative in translating business and marketing requirements into secure, scalable web applications. Solid foundation in IoT architecture for designing connected systems that integrate physical devices with digital platforms.

## SKILLS

- Technical Analysis
- Software Best Practices
- HTML5
- JavaScript
- jQuery
- CSS3
- PHP 7,8
- MYSQL
- Python (Basics)
- Flutter/Dart
- Stakeholder Management
- Ability to learn new technologies
- Jira
- Trello
- CodeIgniter 3,4
- Laravel
- Livewire
- Django (Basics)
- ASP.NET(MVC)
- SQL
- Vue.js
- ReactJS
- IoT Architect
- Ability to learn new technologies
- Project Planning & Execution
- Team Leadership
- Agile Methodologies

## WORK HISTORY

**Senior Web Developer**, 11/2021 to Current
**"360 Tech solution",** – KARACHI, SINDH

- Led end-to-end website and web application projects, managing scope, timelines, resources, and cross-functional teams to deliver custom solutions on schedule and within budget.
- Planned and oversaw website development lifecycle, converting client mockups and requirements into functional web presences using HTML, JavaScript, PHP, Laravel, Livewire, AJAX, and JSON.
- Coordinated front-end and back-end development efforts, utilizing HTML5, CSS3, PHP/Laravel, and related technologies to build mobile-friendly, responsive websites.

- Managed debugging, quality assurance, and pre-launch testing to identify and resolve flaws, ensuring high-quality deployments.
- Transitioned legacy websites to modern, user-friendly versions while integrating new features to streamline business operations.
- Served as primary point of contact for clients, gathering requirements, discussing site/app needs, optimizing solutions, and resolving issues post-launch.
- Directed back-end architecture and integrity using PHP/Laravel, while implementing security patching, third-party code validation, and compliance with standards.
- Oversaw technical troubleshooting, user support requests, and emerging technology integration to maintain long-term site viability.
- Handled multi-project multitasking, deadline management, specialized script development, and end-user training on CMS/security best practices.
- Generated hosting setups, file maintenance, and resource allocation to meet client specifications.

**Visiting Faculty** 01/2024 to Current
**"APTECH"** – (Metro Star Gate) KARACHI, SINDH

- Educated and trained students in web development principles and programming languages, sharing my practical industry experience.
- Designed and delivered lectures and practical sessions on various web technologies, including back-end frameworks like Laravel, to prepare students for the professional world.
- Mentored students on their projects and assignments, providing constructive feedback to enhance their coding skills and problem-solving abilities.
- Created curriculum and course materials to align with current industry standards and ensure students are learning the most relevant skills.

**Web Developer**, **Team Lead** 02/2020 to 10/2021
**"Deevloopers"** – KARACHI, SINDH

- Collaborated with Developers to select ambitious, but realistic coding milestones on pre-release software project development.
- Updated old code bases to modern development standards, improving functionality.
- Planned and developed interfaces that simplified overall management and offered ease of use.
- Integrated constructive programs into cohesive product.
- Participated in software field testing to verify performance of developed projects.
- Introduced agile methodologies and development best practices to division to enhance product development.
- Designed intuitive graphical user interfaces to improve user experience.
- Collaborated on stages of systems development lifecycle from requirement gathering to production releases.
- Introduced automated diagnostics for sensor data collection and processing.

- Translated customer requirements into written use cases.
- Documented technical workflows and knowledge to educate newly hired employees.
- Pioneered new methods of code review to incorporate wider range of voices.
- Designed customized solutions for proposals to potential customers.
- Designed reusable and reliable code for use within distributed cloud environments.
- Discussed issues with team members to provide resolution and apply best practices.
- Developed clear specifications for project plans using customer requirements.
- Coordinated with project management on database development timelines.
- Developed Web Application software for desktop and mobile operating systems.

## EDUCATION

**Bachelor of Science**: Computer Science, 01/2020
**Preston University** - Karachi

**Higher Secondary School Certificate**: Computer Science, 04/2013
**Board of Intermediate Education** - Karachi

**Secondary School Certificate**: Computer Science, 04/2015
**Falcon house Grammar School** - Karachi

## PROJECTS

- **Laravel RBAC** (**Role-Based Access Control**) package for Laravel with built-in authentication and email verification support: https://github.com/Zohaib482/laravel-simple-rbac
- **Countryroof.com**: CRM(Customer Relationship Management) Project developed in Laravel and livewire.
  Admin: mithungupta781@gmail.com
  password: "password"
- **Ministryoftravel.com.au**: Travel Management/Flight booking Application built in Laravel
- **Lastminutecleaning.com.au:** CRM Project developed in Laravel with Twilio conference call integration, Realtime notifications through Websockets
  Admin: admin@example.com
  password: admin123
